

# SONDOS IBRAHIM

Frontend Developer

sondosibrahim246@gmail.com | +20 115 571 8339 | Cairo, Egypt | [LinkedIn](#) | [GitHub](#)

## EDUCATION

### Bachelor of Science in Computer Science

Helwan University, Faculty of Computers and Artificial Intelligence

Expected Graduation: June 2027

## EXPERIENCE

### Frontend Developer Trainee – ITI (Information Technology Institute)

Feb 2025 – Jul 2025

Remote • Angular Internship

- Engineered 5+ responsive SPAs using Angular, HTML5, CSS3, and JavaScript with consistent cross-browser compatibility.
- Connected Angular components to RESTful APIs using HttpClient, reducing page load time through optimized data-fetching patterns.
- Built a reusable UI component library following Angular best practices, accelerating feature delivery by approximately 30%.
- Participated in Agile sprints, code reviews, and pair-programming sessions within a collaborative remote team.

### Web Developer Trainee – NTI (National Telecommunication Institute)

Aug 2024 – Sep 2024

Remote

- Designed and coded 10+ mobile-first web pages using HTML5, CSS3, JavaScript, and jQuery.
- Implemented responsive layouts using CSS Flexbox and Grid, ensuring compatibility across major browsers and screen sizes.
- Contributed to a shared codebase with 4 teammates using Git version control and feature-branch workflow.

## FEATURED PROJECTS

### Bibliotheca – Library Management System *React · Spring Boot · MySQL*

- Architected a full-stack SPA with role-based access control (RBAC) supporting User, Admin, and Librarian roles.
- Implemented protected routes and role-specific dashboards in React, managing books, users, and inventory in real time.
- Integrated Spring Boot REST APIs using Axios with async state handling via React Hooks.
- Modeled relational MySQL schema and connected it to the backend through JPA/Hibernate.

### PetAdopt – Pet Adoption Platform *React · .NET · REST API*

- Built a responsive React SPA allowing users to browse, filter, and adopt pets with live availability updates.
- Consumed .NET backend REST APIs to surface pet details: age, type, vaccination status, and region.
- Implemented location-based filtering to improve regional pet discovery and overall user experience.

### Shopify Clone – E-Commerce Platform *Angular · REST API · Bootstrap*

- Built a fully responsive e-commerce SPA with product listing, search, category filtering, and seamless Angular Routing.
- Implemented a dynamic shopping cart with add/remove/update quantity functionality and real-time total calculation.
- Consumed public REST APIs for live product data and managed state using Angular Services and RxJS BehaviorSubject.

### 3D Tic-Tac-Toe – AI Game (4×4×4) *Python · Minimax · Alpha-Beta Pruning*

- Developed an AI agent using the Minimax algorithm with Alpha-Beta pruning for optimal decision-making in a 3D environment.
- Implemented heuristic evaluation strategies to assess board states and guide move selection efficiently.
- Built complete 4×4×4 game board logic with optimized move generation and win-condition detection.

## TECHNICAL SKILLS

---

**Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Angular, Bootstrap, RxJS

**Architecture:** Responsive Design, SPA, Component-Based Development, REST API Integration

**Backend:** Spring Boot, .NET (Familiar)

**Database:** MySQL

**Tools:** Git, GitHub, Figma, Agile/Scrum

**Design:** UI/UX Design, Wireframing, User-Centered Design Principles

**Languages:** Arabic (Native), English (B2 Upper-Intermediate)

## CERTIFICATIONS

---

- Front-End Development with Angular – ITI (Information Technology Institute), 2025
- UI/UX Design – NTI (National Telecommunication Institute), 2025
- Web Designer – NTI (National Telecommunication Institute), 2024
